

HORIZON AIRCRAFT PARTNERS WITH RENOWNED DESIGNER ANDREA MOCELLIN TO SHAPE THE FUTURE OF AIR MOBILITY

News / Business aviation, Manufacturer

Horizon Aircraft announces a strategic collaboration with Andrea Mocellin, an internationally acclaimed mobility designer, to refine the design and aesthetics of the revolutionary Cavorite X7 hybrid-electric eVTOL aircraft. Mocellin, known for his pioneering work in aviation, automotive, and micromobility, brings extensive expertise from leading roles at Lilium, Alfa Romeo, Maserati, NIO, Pininfarina, and the internationally-awarded Revolve Air. His visionary approach to design, blending engineering, aerodynamics, and storytelling, will ensure that the Cavorite X7 is not only technologically advanced but also visually iconic.

The Cavorite X7, designed for high performance, long-range capabilities, safety, and operational flexibility, will represent a major leap in hybrid-electric aviation. Horizon Aircraft and Mocellin will focus on refining its exterior form, proportions, and key design elements, seamlessly integrating functionality with aesthetics to enhance efficiency, aerodynamics, and user experience. The interior will be designed to accommodate multiple configurations, optimizing space and user experience without compromising on functionality or comfort.

Brandon Robinson, CEO and Co-founder at Horizon Aircraft commented: “As we push forward with the next phase of the Cavorite X7’s development, partnering with Andrea allows us to elevate the aircraft’s design and reinforce our commitment to world-class innovation in eVTOL technology.”

Andrea Mocellin stated: “It is a unique opportunity to collaborate with Horizon Aircraft on this groundbreaking project. Bringing together my experience in transportation design and mobility innovation, our goal is to create an aircraft that is both performance-driven and instantly recognizable, setting a new benchmark in the industry.”

This partnership underscores Horizon Aircraft’s dedication to excellence, ensuring that the Cavorite X7 not only delivers exceptional performance but also embodies a compelling and futuristic design suited for the next generation of sustainable air mobility.
