

MC-21-310 FLIGHT-TEST AIRCRAFT WITH PD-14 ENGINES TO CONTINUE FLIGHT TESTS

News / Manufacturer

June 7, 2021 MC-21-310 flight-test aircraft after being painted at “Spektr-Avia” arrived from Ulyanovsk in Zhukovsky.

test pilot Andrey Voropayev, flight test engineer Anton Kuznetsov.

According to Vasily Sevastyanov, the aircraft equipped with new Russian PD-14 engines performed well in flights Irkutsk – Ulyanovsk and Ulyanovsk – Zhukovsky.

MC-21-310 aircraft will continue the flight test program at the airfield of the Gromov Flight Research Institute.

The MC-21-310 aircraft (tail number 73055) made its maiden flight in December 2020. It is planned to hold the public premiere of the MC-21-310 aircraft at the Moscow international aviation and space salon MAKS-2021.
