

ORDER CONFIRMATION FOR AIRBUS A320NEO, A321NEO AND A220S - JAZEERA AIRWAYS & AVIATION CAPITAL GROUP

News / Manufacturer

Aviation Capital Group has signed a firm contract for 20 A220s following its order for 40 A320neo Family aircraft including five A321XLRs announced in December 2021. “We are delighted to expand our partnership with Airbus through this A220 order”, said Steven C. Udvar-Hazy, Senior Vice President, OEM Relations & Market Development at ACG. “Our airline customers will appreciate the A220’s environmental friendliness, passenger comfort, and competitive operating economics.”

“This order for 20 A220s from Tokyo Century’s Aviation Capital Group reflects the potential of the aircraft as a sound investment, including for investors based in the Asia Pacific region”, said Christian Scherer, Chief Commercial Officer and Head of Airbus International. “We thank and congratulate our partners at ACG. With fuel and emissions efficiency ever more a discriminating investment choice, the A220 really stands out. Equally gratifying is the market feedback that the A220’s cabin is becoming the passengers’ darling in the regional and small single-aisle segments.”

The A220 is the only aircraft purpose-built for the 100-150 seat market and brings together state-of-the-art aerodynamics, advanced materials and Pratt & Whitney’s latest-generation PW1500G geared turbofan engines. Featuring a 50% reduced noise footprint and up to 25% lower fuel burn per seat compared to previous generation aircraft, as well as around 50% lower NOx emissions than industry standards, the A220 is a great aircraft for regional as well as long distance routes operations. The latest agreement lifts the total number of firm orders for the A220 above 700.

With this order ACG is supporting the recently launched multi-million dollar ESG fund initiative by Airbus that will contribute towards investment into sustainable aviation development projects.

Jazeera Airways has firmed up an order with Airbus for 28 aircraft, including 20 A320neos and eight A321neos. The order confirms the Memorandum of Understanding announced in November 2021. “Jazeera Airways is a long-standing partner of Airbus and we are delighted to see them grow their all-Airbus fleet with an additional 28 A320neo Family aircraft”, said Christian Scherer, Airbus Chief Commercial Officer and Head of Airbus International. “The A320neo Family offers the right size, economics and customer comfort for Jazeera Airways to serve its growing customer base and open new routes competitively. We salute team Jazeera for their remarkable development and thank them for their trust and for this important order”.

“We are pleased to confirm this latest order with Airbus,” said Rohit Ramachandran, Jazeera Airways Chief Executive Officer. “By taking both A320neo and A321neo versions we will have great flexibility to extend our network to medium and longer haul destinations from Kuwait, offering passengers more choice to travel and enjoy popular destinations as much as underserved ones”

The A320neo Family incorporates the very latest technologies including new generation engines, Sharklets and aerodynamics, which together deliver 20% in fuel savings and CO2 reduction compared to previous generation Airbus aircraft. The A320neo Family has received more than 7,400 orders from over 120 customers.
