ROCKWELL COLLINS ADOPTS DASSAULT SYSTÈMES' 3DEXPERIENCE PLATFORM

News / Manufacturer

Dassault Systèmes, the 3DEXPERIENCE Company, world leader in 3D design software, 3D Digital Mock Up and Product Lifecycle Management (PLM) solutions, announced a renewed agreement with Rockwell Collins to extend their PLM journey using the 3DEXPERIENCE platform as the PLM foundation. Rockwell Collins is a pioneer in the development and deployment of innovative aviation and high-integrity solutions for both commercial and government applications.

Rockwell Collins is currently deploying ENOVIA and EXALEAD applications from Dassault Systèmes' "Co-Design to Target" industry solution experience to build a PLM environment for its engineering and technology sectors around the world. Rockwell Collins invested in Dassault Systèmes' technologies to improve collaboration across its research, development and manufacturing processes, streamline workflows and change management, and help manage its internal costs for increasingly complex systems. Dassault Systèmes' solution operates seamlessly on a secure government cloud environment, a vital requirement for Rockwell Collins.

Based on the 3DEXPERIENCE platform, "Co-Design to Target" is used by aerospace and defense companies to manage the increasingly complex systems required in modern aircraft, while helping satisfy program requirements. In addition to collaboration and workflow technologies, "Co-Design to Target" offers functional mockups and simulation capabilities, as well as dashboards that

provide real-time access to all project information.

“The heritage of Dassault Systèmes in the aerospace and defense industry is driving innovations that transform how engineers, designers and technical experts work,” said Michel Tellier, Vice President, Aerospace & Defense Industry, Dassault Systèmes. “Our investment in research and development ensures Rockwell Collins and our other customers are equipped with technology tailored exclusively for the aerospace and defense industries. Rockwell Collins chose to leverage key capabilities of the 3DEXPERIENCE platform to reduce complexity in its global business. We look forward to continuing this strong collaboration with Rockwell Collins and playing an integral part in supporting its business.”

Dassault Systèmes will be attending this year’s International Paris Air Show (June 19-25), booth E172 (hall 2B) and chalet B161 (by invitation only). For more information, visit https://age-of-experience.3ds.com/paris-air-show-2017-dassault-systemes
