

THE DECARBONIZATION OF AVIATION IS UNDERWAY... DISCOVER THE AURA AERO AT PARIS AIR SHOW

News / Manufacturer

Pioneering decarbonized aviation, AURA AERO will be at Paris Air Show. The manufacturer will present on static display zone the two-seater electric-thrust aircraft INTEGRAL E, which will be unveiled for the first time, as well as INTEGRAL R, intended for aerobatics and INTEGRAL S, intended for pilot training. AURA AERO will also unveil the cabin of ERA, its 19-seater electric-thrust regional transport aircraft, bearing a cockpit equipped with the new-generation avionic systems specially co-developed with Thales. A digital immersive system will also enable visitors to discover, for the first time, the different cabin configurations which will be available, for passenger transport – economy or business – for special missions, or for cargo transport.

Je?re?my CAUSSADE, President and co-founder of AURA AERO, commented: : “Paris Air Show is the major event for the aeronautical industry. For our second participation, we will be able to unveil our entire aircraft range. Together with institutions, industrialists and customers, we will demonstrate that our aircraft, as well as our vision of the aviation of tomorrow, are relevant. Come and visit us!”.

To enter this new era of sustainable aviation and to continue hiring in view of the ramp-up of its programs, the Human Resources team of AURA AERO will be present all along the show, to

promote the company's jobs and recruit new talents. Indeed, over 100 recruitments are planned by the end of this year. This initiative is associated with the GIFAS campaign for the promotion of employment and trades, "L'Aéro recrute" (the Aeronautics industry is recruiting).

From Monday 19 to Friday 23 June, AURA AERO will welcome on its stand the institutions that support its commitment to decarbonization - from the European Union to the Occitanie Region - as well as airlines, partners and suppliers who are engaged at its side, or experts in the use of bio-sourced materials, who bear an approving gaze on AURA AERO's environmental approach.
