GETJET AIRLINES COMPLETES SUMMER FLEET WITH AIRBUS A320 AIRCRAFT

News / Airlines

Just in time for the busiest time of the year, IOSA-approved Lithuanian ACMI and charter carrier GetJet Airlines has completed its summer season fleet with the addition of an Airbus A320-200 unit, bringing the total number of family aircraft to eight. Registered under Lithuanian registration LY-CAP, this Airbus A320-200 features a single economy class equipped with 180 seats. This newest addition to the fleet is starting its operations this April, serving European customers for the upcoming summer season.

R?ta Kulvinskait?, CEO of GetJet Airlines, commented: "In March, we added the fifth Boeing 737-800 to our fleet, and now we are further solidifying our roster for peak travel season with another Airbus A320-200. We are dedicated to delivering fast, flexible, and efficient wet-lease services to our airline partners, as demand for ACMI services continues to rise," says Kulvinskait?. “Expanding our fleet ahead of the summer season ensures that we are fully equipped to meet the growing demands for support and capacity. With a diverse fleet consisting of Boeing 737-800, Airbus A320, and A321 aircraft, this expansion reinforces our readiness to serve a broader customer base worldwide."
