THE EMIRATES A380 TOUCHES DOWN IN NICE

News / Airlines, Airports / Routes

Emirates operated its inaugural A380 service to Nice Cote d'Azur International Airport, marking the introduction of the iconic double-decker on the route. Passengers on today's flight represented travellers from countries across Africa, Australasia, the Middle East and South Asia.

Replacing the existing Boeing 777-300ER used on this route, the A380 will serve the strong customer demand and bring the total number of global destinations served by the Emirates A380 to 47. The aircraft upgauge will also offer consumers travelling on the Nice route the unique experience of Emirates' flagship A380 aircraft, and a seamless Emirates A380 experience to many connecting destinations on the airline's global network.

Emirates is the world's largest A380 operator with 95 of the double-decked aircraft in its fleet and a further 47 on order. The flagship of Emirates' all wide-body fleet, the A380 is extremely popular with travellers for its comfort and industry-leading onboard features. As the first and only airline in the world to operate a fleet of all Airbus A380 and Boeing 777 aircraft for its passenger flights, Emirates' operating fleet remains modern and efficient while offering customers a high level of comfort. Since 2008, Emirates has flown over 80 million passengers on its A380 fleet.
