BOEING BUSINESS JETS IS NEWEST ?MANUFACTURER TO JOIN IADA

News / Business aviation

Boeing Business Jets is the most recent business jet Original Equipment Manufacturer member to join the ranks of the International Aircraft Dealers Association.

BBJ President Erika Pearson, commented: “BBJ is delighted to be an OEM member of IADA. The organization of airplane transaction experts has become a force in promoting transparency and integrity in aircraft sales. As the market evolves following the pandemic, we look forward to working with other IADA members to meet the needs of the growing ranks of private flyers.”

IADA Executive Director Wayne Starling, said: “The IADA Board of Directors extends a warm welcome to Boeing Business Jets.Our OEM members are the world’s leading business jet manufacturers that have established exceptional professional global aircraft sales networks.”

Boeing Business Jets provides an unmatched private jet experience and is trusted by many heads of state worldwide. BBJ offers customers a range of high-performance airplanes that are uniquely customized for any private, business or governmental use.

BBJs range from the BBJ 737-7 to the BBJ 777-9, a business jet capable of flying between any

two destinations on earth, nonstop. With more than 260 Boeing Business Jets sold since the group was founded in 1996, BBJs are supported by Boeing’s global service network. For more information, visit: www.boeing.com/bbj.

IADA-accredited dealers are active in all areas of the world, many in multiple regions. Nearly every dealer does business in North America, 56 percent of dealers operate in Europe, 44 percent are active in Latin America, 42 percent do business in Asia and the Pacific region and 39 percent work in the Middle East and Africa.

IADA's AircraftExchange marketing search portal is the only site where every aircraft listed for sale is represented by an accredited dealer. AircraftExchange enables users to create a confidential dashboard of business jets for sale, filtered based on their features and amenities, class size, age, and price. Users can browse through data-rich listings for available business aircraft.
