

# DEER JET ADDS FIRST CHINA-REGISTERED G650 TO GROWING FLEET

News / Business aviation

**The latest G650 had taken off at 11:51am from Savannah, Georgia and headed to the Chinese coastal city of Tianjin. This G650 adds to Deer Jet’s growing managed fleet as the very first private jet of its class registered in mainland China.**

Mr. Frank Fang, Vice President of Deer Jet said: “We are very honoured to take over the management and operation of the very first G650 registered in China. To date, Deer Jet owns three licences to operate a fleet of 90 aircraft worldwide, with 2/3 of the jets as managed fleet. This new addition demonstrates Deer Jet’s unparalleled 22-years of safety records and operational excellence, in recognition for the company’s global operations capabilities. Once again, Deer Jet built a milestone for China’s and the global business aviation industry. We created the first private jet company of China, operated the first G450 and G550 in China, and became the first company to operate ultra-long range BBJ and ACJ series in China. And most recently, we added to our managed fleet the world’s first BBJ 787. After this outstanding performance, the company has been titled the “World’s Best Private Jet Company” and won the “NBAA Corporate Safety Awards” among other accolades and recognitions. After 22 years, we look forward to continuing supporting our customers and to achieve our common dreams.”

The addition of the new G650 marks the start of Deer Jet's 2017 ambitious plan to further expand its managed fleet. Already 10 more G650/G650ER series are expected to join Deer Jet's fleet in the near future.

Deer Jet is not only growing its assets but also enhancing its product and service range. In April Deer Jet launched a series of innovative solutions for aircraft management at the ABACE 2017. The new star-products include "Deer Jet Care Plus Plan", "Deer Jet FBO Membership Card" and 787 Dream Jet charters.

Mr. Frank Fang further commented that *"Deer Jet is building up a global premium business travel brand on its comprehensive supply chain and upon its own vision of "Making Travel and Art"."*

Already ten more G650/G650ER series are expected to join Deer Jet's fleet in the near future.
