

EHANG TO PROVIDE UAM SERVICES IN HENGQIN NEW AREA IN ZHUHAI CHINA

News / Business aviation, Manufacturer

EHang announced strategic partnerships with Zhuhai Da Heng Qin Pan-Tourism Development Co., Ltd., Zhuhai Huafa Sports Operations Management Co., Ltd. and Flying World (Zhuhai) Technology Co., Ltd. to jointly initiate Urban Air Mobility (“UAM”) operations for aerial sightseeing and other air mobility services in the Hengqin New Area, the largest island and a Free Trade Zone in southeast Zhuhai in Guangdong Province of China. By establishing AAV experience centers and a suite of supporting service systems, EHang AAVs will be integrated into the daily life of the local population.

During a signing ceremony held on January 8, a fleet of EH216 AAVs made passenger-carrying flights in Tianqin Park on Hengqin New Area. The flights were seen by local government officials, enterprise representatives, the media and local residents. A total of 36 passengers flew in the autonomous EH216, enjoying safe and comfortable aerial sightseeing trips. Through this event, EHang fully demonstrated its leading-edge technology for the centralized management of simultaneous flights of multiple AAVs in distributed operations under the command-and-control systems.

Li Weihui, Deputy Secretary of the Hengqin New Area, said, “We warmly welcome the arrival of EHang passenger-grade AAVs to Hengqin. We believe this new style of intelligent air mobility will have more and better uses and will flourish in our beautiful Hengqin New Area.”

Resting on the west bank of the Pearl River estuary, the Hengqin New Area is regarded as the core of Pearl River Delta and boasts a unique geographical location adjacent to Hong Kong and Macau. With an advantageous geographical location, pleasant natural scenery and rich tourism resources, it boasts favorable conditions and market demand for the development of short- and medium-haul urban air transportation. According to the *Outline of the Development Plan for the Guangdong-Hong Kong-Macao Greater Bay Area* and the *Overall Development Plan of Hengqin* issued by the State Council of the People's Republic of China, Hengqin will become a demonstration area for in-depth cooperation among Guangdong, Hong Kong and Macao and an international leisure and tourism destination suitable for living, working and travel, accelerating the integrated development of tourism in the Guangdong-Hong Kong-Macao Greater Bay Area.

Lu Ting, CEO of Flying World (Zhuhai) Technology Co., Ltd., commented, “We are excited to cooperate with EHang and other strategic partners. By leveraging EHang’s world’s leading AAV technology and strong support from local government, we see promising market development potential and are confident that we can integrate air mobility services into the leisure and tourism industry in Hengqin. We believe this effort can gradually expand across the Guangdong-Hong Kong-Macao Greater Bay Area to form synergistic operations and development.”
