

EXPANDED ACCESS TO EXCLUSIVE EMBRAER AIRCRAFT LISTINGS - AIRCRAFTEXCHANGE PARTNERS WITH EMBRAER JET OPERATORS ASSOCIATION

News / Business aviation

AircraftExchange formed a strategic partnership with the Embraer Jet Operators Association to provide its members with direct access to AircraftExchange's exclusive listings of preowned Embraer business jets for sale. AircraftExchange is the official online marketplace of the International Aircraft Dealers Association. As part of the partnership, EJOA's digital platforms now include a direct link to [AircraftExchange.com](https://www.aircraftexchange.com) listings.

It allows EJOA members to easily browse available Embraer jets represented exclusively by IADA-Accredited Dealers. Likewise, AircraftExchange will feature a reciprocal link to EJOA's site, giving AircraftExchange users a seamless path to learn more about EJOA's resources and community.

Lou Seno, Executive Director of IADA commented: "This partnership is a natural alignment between two organizations that value operational excellence and informed ownership. EJOA members are some of the most sophisticated aircraft owners in the world. By providing direct access to IADA's exclusive listings on AircraftExchange, we're giving them a trusted pathway to aircraft transactions executed with confidence."

Jamie Rogers, Executive Director of the Embraer Jet Operators Association stated: “By integrating AircraftExchange with EJOA’s membership tools, we’re expanding the value of both organizations to bring together both Embraer jet owners and prospective buyers. This partnership enhances our members’ access to trusted aircraft listings while reinforcing our shared commitment to safety, service, and operational excellence.”

AircraftExchange is the only online listing portal where every aircraft is exclusively represented by an IADA-Accredited Dealer. Listings include rich data, detailed aircraft specifications, dealer information, and interactive tools to help prospective buyers identify the right aircraft for their mission.

Inventory is continuously updated, and users can create watchlists, get real-time notifications, and track price changes on the specific models they’re interested in, such as the Phenom 100, Phenom 300, Legacy series, and more. The relationship between EJOA and AircraftExchange reflects their mutual dedication to supporting the Embraer owner-operator community with the highest standards of service, safety, and transparency.
