The global business jet market was worth USD 20.9 billion in 2013 and is projected to grow at a CAGR of 6.86% to USD 33.8 billion by the end of 2020. Both North America and Europe are

showing recovery in business jets market demand. While both the regions have a comparable size of economy, the private jet flight activity in North America is 3.5 times larger. In the Asian region, the players are focused on China and India. It is expected that in the next decade the business aviation industry in India will grow three times and emerge as the third largest aviation market by 2020.

The global business jet market demand which was nearly halved during the financial crisis has now improved and large players are launching new models in the wake of increasing demand from Middle East, Asia and North America. Although the corruption crackdown and the new government's policies have slowed the economic pace of China, business jet market outlook is still bright. The Greater China area is expected to take delivery of 2,420 business jets in the period 2013 to 2032. This business jet market 2015 research highlights key drivers of and trends emerging in the global business jet market. The current market scenario and future prospects of the sector has been examined in detail. The North America, Europe, China and India business jets market have been studied in detail. All key global players in the business jet market including Gulfstream Aerospace Corp., Bombardier Inc., Cessna Aircraft, Honeywell International Inc., Embraer S.A. and Dassault Aviation have been profiled. The report contains latest industry leaders verbatim.
