

LUXAVIATION GROUP TO OPERATE FIRST BELGIUM BOMBARDIER CHALLENGER 350 AIRCRAFT

News / Business aviation, Manufacturer

Congratulations, Luxaviation Group now wis operating first Bombardier Challenger 350, delivered to a customer in Belgium. This is the newest Benelux addition to already robust Bmbardier's business aircraft fleet in Europe.

“We are very pleased that Bombardier’s best-selling *Challenger 350* business jet has joined Luxaviation’s fleet of aircraft,” said Christophe Degoumois, Vice President, Sales, Europe, Russia and CIS, Bombardier Business Aircraft. “With its impressive high-performance features, superior economics, unmatched cabin comfort and entertainment technology, the *Challenger 350* aircraft is ideally suited for the European market.”

“We’re delighted to welcome this exceptional aircraft to Luxaviation’s fleet in Belgium,” said Hervé Laitat, CEO of Luxaviation Belgium. “At Luxaviation, we have always set the bar very high for international business aviation operations, and our facilities in Belgium are a true reflection of this. Our ExecuJet Brussels Fixed Base Operation (FBO) was the first to be certified by the International Standard of Business Air Handling (IS-BAH) in the country, and we’ve just achieved IS-BAH Stage II certification, proving our team’s dedication to safety and service excellence. We’re looking forward to extending our renowned offering to

the owner of Belgium's first *Challenger 350*."

As the only super mid-size aircraft that can fly full range at full fuel with full seat capacity, the

Challenger 350 aircraft offers the luxury of having it all. Valued for its outstanding short-field performance, the aircraft climbs quickly and directly to 43,000 feet (13,106 metres), allowing passengers to efficiently avoid traffic and inclement weather.

With its signature smooth ride, exceptional cabin and the lowest-operating costs in its class, the best-selling business aircraft of the last decade is in high demand on the charter market. With a range of 3,200 NM (5,926 km), the *Challenger 350* aircraft can connect Brussels to Dubai non-stop.

The *Challenger 350* aircraft delivers comfort without compromise, with a stylish and spacious cabin that is among the quietest in its segment, accommodates up to 10 passengers, features a fully-equipped galley and unrestricted access to the baggage compartment at all flight levels.

Recently awarded steep approach certifications by several international regulatory bodies, including EASA, FAA and TC, the *Challenger 350* aircraft allows operators to perform landings in countless difficult-to-access airfields, including London City Airport, neighboring one of the world's greatest financial centres.
