

TAMARACK AEROSPACE GROUP EXPANDS NORTH AMERICA DEALERSHIP ALLIANCE WITH DAVINCI JETS

News / Business aviation

Davinci Jets brings extensive operational and customer support expertise to Tamarack Aerospace growing roster of authorized service centers. The addition of Davinci supports Tamarack Aerospace commitment to delivering convenient, regionalized support for CitationJet operators looking to upgrade their aircraft with Active Winglet technology.

Trey Darr, VP of Davinci Jets Services commented: "We are extremely excited about our new partnership with Tamarack, and I couldn't be more thrilled to offer the incredible performance gains that come with the Tamarack ATLAS Winglet installation. The addition of these winglets not only enhances the aircraft's efficiency but also improves its overall performance in a way that our customers will truly appreciate. There are pilots on our team here at Davinci, who have operated citations with the Atlas winglets, and they rave about the performance gain. We're proud to announce that Davinci Jets Services is now fully equipped to provide this cutting-edge service. Additionally, we can integrate the winglet installation with other essential inspection and maintenance services, ensuring that our clients make the most of their aircraft's downtime while

receiving top-notch care.”

Tamarack Aerospace President, Jacob Klinginsmith stated: “Davinci Jets is an ideal partner. Their team’s knowledge, reputation for operational excellence, and commitment to service aligns perfectly with our brand and the experience we want for Tamarack customers. This new partnership further enhances our footprint in the southeastern U.S. and gives operators more options for seamless installation and service.”

CitationJet operators — including the CJ, CJ1, CJ1+, M2, M2 GEN2, CJ2, CJ2+, and CJ3, CJ3+, CJ3+ GEN2 —now have direct access to Tamarack’s transformative Active Winglet technology through Davinci Jets. Installations will be performed by certified technicians at Davinci’s Charlotte facility, minimizing downtime and streamlining logistics. With maintenance, charter, and aircraft management services under one roof, customers benefit from convenient scheduling and tailored support throughout the process.
