Leading 7th Maximising Non-Aeronautical Revenue Summit takes place This June 2019 in Singapore!

With an average of 44% of global airports' revenues deriving from the non-aeronautical sector and its increasing profitability, airports regardless of size have attempted to increase their revenue generation through non-aeronautical activities. However, with the impacts of economic downturns, limited commercial spaces and passenger flows, many airports are struggling to maximizing non-aeronautical revenue growth.

Taking place in **Singapore** from **18-21 June 2019**, this 4-day summit aims to gather world's leading airports' commercialexperts to discuss and overcome non-aeronautical revenue performance challenges through innovative approaches that help understand passengers/visitors purchasing patterns & expectation on F&B/DFS, increase concessionaires'profitability through retails brand management, optimize car parking revenue and look into how to maximize limited commercial spaces to make more revenue.
