

FINNAIR ISSUES EUR 200 MILLION BOND

News / Airlines, Finance

Finnair Plc issues a senior unsecured bond of EUR 200 million (the “Bond”). The Bond matures on 29 March 2022, it bears a fixed annual interest at the rate of 2.250 percent and has an issue price of 99.925 percent. The bond is callable before its final maturity.

“Finnair’s prudent execution of its accelerated growth strategy and continued improvement in financial performance are reflected in pricing of the long-term funding. With this transaction, Finnair utilised the favourable market conditions and was able to lengthen the average maturity in its debt portfolio with competitive terms,” says Finnair’s CFO Pekka Vähähyppä.

Application will be made for listing of the Bond on Nasdaq Helsinki Ltd. The proceeds from the Bond offering will be used to refinance some of Finnair’s existing indebtedness, including the partial redemption of the bond maturing in 2018, and for general corporate purposes.

Danske Bank A/S and Nordea Bank AB (publ) act as Lead Managers for the issue of the Bond.
