

# AIR MUNICH AVIATION IN GERMANY OPTED FOR AN ALSIM AL250

News / Maintenance / Trainings

**ALSIM is strengthening its presence in Germany as Air Munich Aviation, located in Jesenwang airport, nearby Munich, has recently bought an ALSIM AL250 simulator.**

**The AL250 simulator addresses initial phase training needs (PPL, CPL, IR/ME) and is SEP/MEP re-configurable simulator certified as an EASA FNPT II. In addition, it offers both classic and glass cockpit instrumentation for each flight model at the simple flick of a switch. This device has been extremely well received since its creation and more than 65 of these have already been installed and are in successful operation worldwide.**

**“Under new direction since few years, we have been noticeably growing, expanding our fleet as well as our staff’s size. With 14 aircraft and increasing demand, we decided to step-up and acquire a flight simulator. Beyond quality, our main requirements for a flight simulator were versatility and simplicity of the certification process. The reputation of ALSIM, the capacities and specifications of the AL250 were determining in our choice.” according to Manuel Ringler, Head of Training/CEO of Air Munich Aviation AG.**

Nicolas de Lassus, ALSIM Sales Account Manager emphasizes:” Alsim is delighted to welcome Air Munich Aviation among our customers in Germany. Adding an AL250 flight simulator will enable the flight school to provide high-quality courses and answer their PPL, CPL and IR training needs. We hope this is the beginning of a successful cooperation between our two companies! ”

*Air Munich Aviation AG was established over 40 years ago. Providing training ranging from UL to ATPL to approximately 100 per year, we placed ourselves as one of the biggest ATOs in southern Germany. For more information about Air Munich Aviation, please visit: <https://air-munich.de/>*
