

AIRWAYS AVIATION ANNOUNCED LAUNCH OF NEW TRAINING FACILITY IN CYPRUS

News / Maintenance / Trainings

Airways Aviation announced the launch of its newest training facility in Cyprus, set to open its doors in September 2024. Located in the picturesque sea-side city of Larnaca. Cyprus is renowned for its relaxed lifestyle, beautiful landscapes, and favorable climate. The region's stable and consistent flying weather ensures that students can fully immerse themselves in their training with minimal seasonal interruptions. New Cyprus facility will attract aspiring aviators from around the region and beyond and provide a range of Airline Pathway Programs that lead to EASA, CASA, ATPL, and CPL (ME-IR) certifications. Our well-structured and rigorous courses are designed to equip cadets with the essential skills and knowledge required to excel in the modern aviation industry as Commercial Airline Pilots.

Wissam Mehyou CEO of Intercontinental Aviation Enterprise, Airways Aviation partner in Lebanon and Cyprus commented: "We are excited to announce the launch of our newest training facility in the picturesque city of Larnaca. This addition marks our 5th flying base and 12th ground location globally. Positioned as a strategic bridge between the Middle East and Europe, our Cyprus facility will provide aspiring aviators with unparalleled training opportunities amidst beautiful landscapes and favorable flying weather. We look forward to welcoming the next generation of pilots and

continuing our mission to expand Airways Aviation's reach and impact across the globe."

Romy Hawatt, Founder & Chairman of Airways Aviation Group stated: "The commencement of training activities in Cyprus marks a significant milestone that provides a unique EASA or CASA Airline Pilot Pathway opportunity for students from the Levant and surrounding regions. Specialized Foundation Courses along with our comprehensive theoretical and practical flight training programs are meticulously designed to assess, select, educate, train and equip students with the essential skills and knowledge needed to excel as commercial Airline Pilots."

Aspiring pilots may begin their journey with the Private Pilot License program, continue with Structured Hour Building, and convert to complete their EASA ATPL or CASA CPL training in either France, Italy, or Australia respectively. A notable highlight of Airways Aviation's Cyprus offering will be our bespoke Aviation Foundation Course, which provides aspiring pilots with the necessary groundwork and preparatory training to excel in the advanced pilot training phases.
