

AMECO COMPLETED 2ND A330 LANDING GEAR REPAIR

News / Maintenance / Trainings

Ameco completed A330 landing gear troubleshooting for one Chinese domestic customer at the end of this August. It's the 2nd time to do such a work since Ameco got related authorization from FAA, CAAC and EASA last year.

As the first MRO provider in China to perform A330 landing gear overhaul capability, Ameco also services A320/321 and Boeing 737NG/747.
