

COMLUX AMERICA GETS BBJ WARRANTY REPAIR FACILITY AND SERVICE CENTER APPROVAL

News / Business aviation, Maintenance / Trainings

Comlux the Aviation Group is pleased to announce that Boeing Business Jets has signed an agreement with its completion center, **Comlux America LLC**, which designates the company as an authorized **warranty repair facility and service center**. The contract allows Comlux America to perform warranty work on **BBJ** aircraft on behalf of Boeing, providing BBJ operators another service option in the U.S. Additionally, the Indianapolis-based company will provide other maintenance, repair and overhaul services as required.

Since its creation in 2008, Comlux America has accumulated a wide-range of experience on completing and maintaining Boeing BBJ aircraft for operators worldwide. The company has installed interiors on 5 BBJs, including one BBJ3. Comlux America is currently expanding its 129,000 square-foot (12,000- square-meter) facility to a Wide body hangar able to accommodate large VIP aircraft up to Boeing 747BBJ aircraft.

"With the addition of Comlux America as an authorized center, we can offer our customers yet another option for specialized BBJ service" said David Longridge, President, BBJ. "With experience both inside and outside the cabin, Comlux provides BBJ operators with another choice for their maintenance needs. We've worked successfully with the Comlux team and are pleased to further extend our service network with them."

Scott Meyer CEO Comlux America said "This agreement with Boeing Business Jets is another example of the working relationship between the two companies. As an authorized Warranty repair facility and service center, we further expand our portfolio of services to better serve the BBJ

owner and operator community."

Comlux America located in Indianapolis, Indiana is part of Comlux, The Aviation Group, a leading provider of worldwide VIP aviation services that includes aircraft management, VIP charter, aircraft sales and acquisitions, aircraft cabin designs and completions, aircraft engineering services, aircraft maintenance, and avionics design and integration.
