

HONG KONG SECOND G650ER 4C INSPECTION COMPLETED BY METROJET

News / Business aviation, Maintenance / Trainings

Metrojet Limited is the only MRO in Hong Kong that has completed two Gulfstream G650ER 4C inspections. The first one was completed in May, while the second in October 2020, both during the Covid-19 pandemic. Fuel tank inspection, ram air turbine ground functional test, landing gear modification and shock servicing were carried out during the latest 4C inspection. The HK MRO team managed to accomplish the 4C inspection including the rectification of all defect findings, within the 30-day planned scheduled downtime.

Metrojet is also very pleased to announce that Mr. Dave Yip has been appointed as the new General Manager of its HK MRO effective 1 November 2020. "Our MRO operation has a very solid foundation with cooperative team members capable of performing comprehensive and complex maintenance tasks. Special thanks go to the planning, stores, procurement, and engineering teams for achieving their second G650ER 4C inspection smoothly and on-time. I believe that my previous experience in aircraft management will benefit the company's maintenance side of the business. We will continue the Metrojet spirit of being client-centric and providing a positive customer experience," says Mr. Dave Yip, Metrojet

HK MRO's new General Manager.

Established in 1997, Metrojet as part of the Kadoorie Group, pioneered business aviation services in Hong Kong and remains one of the foremost safety- and customer-focussed business jet operators and maintenance providers in the Asia Pacific region. The company provides all-inclusive aircraft management, maintenance and aviation consultancy services to our growing business aviation customer base.
