

METROJET COMPLETES GLOBAL 5000 60-MONTH INSPECTION

News / Business aviation, Maintenance / Trainings

Hong Kong-based Metrojet Limited, a business aviation service provider with presence throughout Asia Pacific, announced that its Maintenance, Repair and Overhaul Facility (MRO) in Hong Kong has recently supported a 60-month inspection on a Bombardier Global 5000. With the aid of its own Maintenance Delivery System (MDS), Metrojet HK MRO is able to complete the check within 42 days.

The full structural repair support includes Non-Destructive Testing, cold work, shot peening and cadmium plating. Upgrade for corrosion inhibiting flap removal and ADS-B-Out have also been performed on the Global 5000 during the inspection.

“The on-track completion of the inspection attests our team’s professional experience on planning and our dedication to delivering quality maintenance services with customers always in mind,” says Mr. Bruce Watson, General Manager of Metrojet HK MRO. “We are very proud of our team

and the support our MRO provides to the customers.”

Established in 1995, Metrojet pioneered business aviation services in Hong Kong and remains one of the most renowned safety and customer-focussed business jet operators and maintenance providers in Asia Pacific. The company provides all-inclusive aircraft management, maintenance and aviation consultancy services.
