

METROJET ENGINEERING CLARK INTRODUCES NEW QUALITY ASSURANCE EXPERT

News / Maintenance / Trainings, Personalities

Hong Kong-based Metrojet Limited (www.metrojet.com) announced that its Maintenance, Repair and Overhaul (MRO) in The Philippines – Metrojet Engineering Clark – has welcomed an experienced Quality Assurance professional – Mr. John Criss – to ensure its aircraft maintenance services comply with regulatory standards.

Mr. John Criss comes to Metrojet with over 40 years of aviation experience. He worked as senior management in Quality and Engineering at a number of FAA Part 145 Repair Stations in the United States after his aviation maintenance career began with the U.S. Air Force and later obtained the FAA A&P certificate and Inspection authorisation. He was also an FAA Designated Airworthiness Representative and an FAA Designated Manufacturing Inspection Representative involved in heavy aircraft modification projects and type certification projects. He has several years of experience accomplishing conformity inspections on prototype and new aircraft parts prior to joining Metrojet.

“I am glad my international maintenance exposure helps leverage the existing efforts at Metrojet Clark MRO. Our team and I will always work to ensure the maintenance work performed complies with regulatory standards and we strive to provide our customers the highest quality of services, paving the way to become the MRO of choice in the Asia Pacific,” said Mr. John Criss, the new Quality Assurance Manager at Metrojet Engineering Clark.

Established in 1995 and awarded Air Operator's Certificate in 1997, Metrojet is a leading business jet operator and maintenance provider in Asia. The Company provides comprehensive aircraft

management, charter, maintenance and consultancy services, and pioneered business aviation services for 20 years in Hong Kong.
