

SKY ACADEMY SIGNS FOR AN ALSIM AL250 TRAINING SIMULATOR

News / Maintenance / Trainings

Sky Academy, based in Colmar, France, has recently made a significant investment in an ALSIM AL250 simulator. AL250 simulator addresses initial phase training needs (PPL,CPL,IR/ME) and is SEP/MEP re-configurable simulator certified as an EASA FNPT II. In addition, it offers both classic and glass cockpit for each flight model at the simple flick of a switch. This device has been extremely well received since its creation and more than 100 of these have already been installed and are in successful operation worldwide.

Thibault Kochersperger, Deputy Director and Compliance Manager at Sky Academy, commented: "The AL250 is the ideal generic simulator for our diverse training programs. ALSIM is a renowned leader in this field, and we approached this investment with the highest confidence. The support we received throughout the process was exceptional, and the installation was fast and faultless. Certification proceeded seamlessly, with ALSIM's expertise being highly recognized by the authorities."

Audrey Jeffroy, ALSIM Sales Director, said: "We are delighted to welcome Sky Academy into our client portfolio. We hope this marks the beginning of a long and fruitful partnership between Sky

Academy and ALSIM”.

Sky Academy, founded 12 years ago by aviation enthusiasts Marije Vermeulen and Dirk Evers, has established itself as a boutique aviation school dedicated to imparting their passion with excellence. As an EASA-approved independent flight school, Sky Academy offers a wide array of training programs tailored for individuals, professional pilots, and business partners, including schools and commercial entities.
