

AIRBUS HELICOPTER INTRODUCES H145 MERCEDES-BENZ STYLE

News / Manufacturer

Airbus Helicopters has announced it is introducing new **H145 Mercedes-Benz Style**, with four orders being received so far.

The H145 Mercedes-Benz Style offers higher performance, increased safety and improved exterior design for high-end private and corporate operation.

The versatile cabin will allow customers to alter their aircraft to suit their personal needs.

Frederic Lemos, Airbus Helicopters' head of private & business aviation Europe, said: "Customers wishing to further personalise their aircraft will be able to work directly with Airbus Helicopters and the creative design teams at Mercedes-Benz Style to define their unique cabin environment."

The H145 Mercedes-Benz Style can be reconfigured between four and eight seats to suit its user, and is also compact enough for use by super yacht owners.

Deliveries of the H145 Mercedes-Benz Style are expected to start by the end of the year.
