News / Manufacturer

BOC Aviation has announced an additional order for 18 A320neo and 12 A320ceo family aircraft.

The lessor says in a statement that the order was placed in late December 2015, and will help it to fulfil customer demand.

“This order underscores our continued confidence in the reliability and operational efficiency of the A320 family aircraft, and reflects its popularity among our customers for short- and medium-haul routes,” says BOC Aviation's chief executive Robert Martin.
