

# BOEING GLOBAL SERVICES FORECASTS 1.2 MILLION PILOTS AND TECHNICIANS NEEDED BY 2036

News / Maintenance / Trainings, Manufacturer

Boeing released its 2017 Pilot and Technician Outlook today at EAA AirVenture Oshkosh and projects a demand for more than 1.2 million pilots and technicians over the next 20 years.

Now in its eighth year, the outlook is a respected industry study that forecasts the 20 year demand for crews to support the world's growing commercial airplane fleet.

Boeing forecasts that between 2017 and 2036, the world's commercial aviation industry will require approximately:

- 637,000 new commercial airline pilots
- 648,000 new commercial airline maintenance technicians

- 839,000 new cabin crew members

The 2017 outlook shows a slight increase of 3.2 percent for pilots over the 2016 outlook, and a slight decrease in the need for airline maintenance technicians (4.6 percent), primarily driven by the reduction in maintenance hours required on the 737 MAX.

Projected demand for new pilots, technicians and cabin crew by global region for the next 20 years is approximately:

Region	New Pilots	New Technicians	New Cabin Crew
Asia-Pacific	253,000	256,000	308,000
Europe	106,000	111,000	173,000
North America	117,000	118,000	154,000
Latin America	52,000	49,000	52,000
Middle East	63,000	66,000	96,000
Africa	24,000	23,000	28,000
Russia / CIS	22,000	25,000	28,000
