

BOMBARDIER DELIVERS ITS FIRST LEARJET 75 IN BRAZIL

News / Business aviation, Manufacturer

- The class-defining Learjet 75 aircraft continues to set the standard by bringing large jet features to a light jet platform
- Learjet 75 is the only business jet in its class to feature an eight-seat double-club configuration and a flat floor throughout the cabin for a smooth ride and the ultimate in comfort
- Recently celebrated the delivery of the 3,000th Learjet aircraft

Bombardier Business Aircraft announced that it delivered its first *Learjet 75* aircraft to a Brazilian customer. The aircraft joins Bombardier's business jet fleet of 685 *Learjet*, *Challenger* and *Global* aircraft in Latin America.

"Learjet aircraft are iconic, rooted in deep pride and based on a history of ingenuity. We are proud a Brazilian customer selected the *Learjet 75* for its class-leading performance, smooth ride and most private and quiet cabin," said Stephane Leroy, Vice President, Sales, Latin America, Bombardier Business Aircraft. "The *Learjet 75* aircraft is the only business jet in its class to feature a pocket door for reduced noise levels."

Latin America is the third largest market for business aviation deliveries, with Brazil, Argentina, Mexico and Venezuela making up over 80 per cent of the regional fleet. With over 510 *Learjet* aircraft in Latin America, *Learjet* customers can enjoy the quietest and most private cabin in the category.

Bombardier introduced a new level of passenger comfort in the Light jet category in 2016 with the introduction of a *Learjet 75* aircraft featuring an innovative pocket door design. The pocket door divides the cabin from the entry area and reduces noise levels inside the cabin by up to eight decibels*, while creating a distinct private living space for passengers.

Standing the test of time, the *Learjet 75* aircraft continues to set the standard by bringing large jet features to the most trusted light jet platform. In June 2017, Bombardier Business Aircraft celebrated a historic milestone in business aviation - the delivery of the 3,000th Bombardier *Learjet* business jet manufactured. The aircraft was also the 100th *Learjet 75* jet to be delivered.

Defining private jet travel as we know it, the *Learjet 75* aircraft is a no compromise aircraft, meticulously engineered and performance driven. Designed with the pilot's comfort in mind, the *Bombardier Vision* flight deck features a synthetic vision system, enhanced ergonomics, and touch screen controls for productive missions. The *Learjet 75* aircraft's powerful engines and new winglet design enable it to cruise at a speed of Mach 0.81* and climb to an impressive operating ceiling of 51,000 feet (15,545?m).*

The *Learjet 75* aircraft's modern interior was designed for style and comfort and features a new cabin management system with individual touchscreen monitors and full audio and video control, LED lighting throughout the aircraft, and a generous baggage suite.
