

CITILINK BECOMES FIRST AIRLINE IN INDONESIA TO OPERATE A320NEO

News / Airlines, Manufacturer

Citilink, the low cost unit of Garuda Indonesia, has taken delivery of its first A320neo at Airbus headquarters in Toulouse, France. The aircraft is the first of 35 A320neo set to enter service with the carrier.

Citilink has selected CFM Leap-1A engines to power its A320neo fleet, which will be operated on its domestic network, and new international services to China and the Middle East.

Seating 180 passengers in a single class layout, the A320neo joins an existing fleet of 44 A320ceo aircraft flying with the carrier.

The A320neo “new engine option” incorporates many innovations, including latest generation engines and large Sharklet wing-tip devices, which together deliver more than 15 percent in fuel savings from day one and 20 percent by 2020 with further cabin innovations. With over 5,000 orders received from 92 customers since its launch in 2010, the A320neo Family has captured

some 60 percent share of the market.
