

DA50 RG DEBUTS AT EAA AIRVENTURE

News / Events / Festivals, Manufacturer

Diamond Aircraft is thrilled to announce the debut of the DA50 RG at EAA AirVenture 2021 in Oshkosh, Wisconsin, from July 26th to August 1st at Wittman Regional Airport. The DA50 RG has recently reached a monumental milestone with the first [North Atlantic crossing](#) from Diamond Aircraft's headquarters in Wiener Neustadt, Austria, to the London, Ontario, facility in Canada.

“We have been eagerly awaiting the launch of the DA50 RG in North America, combining it with the relaunch of EAA AirVenture in 2021 is a winning combination,” says Scott McFadzean, CEO Diamond Aircraft Industries Inc, “We expect the aircraft will impress our customers at the display, but we know customers can’t wait to get a chance to experience the aircraft first hand. The DA50 RG will begin a demo tour across the US in September 2021.”

The US order book for the DA50 RG will be opened at EAA AirVenture with first deliveries commencing in the second quarter of 2022, as soon as FAA validation is obtained.

The brand-new DA50 RG with its special demonstrator livery together with the DA62, DA42-VI, DA40 NG and DA20-C1 is on display at booth number 9 on James Ray Blvd.

More information on this year's AirVenture show experience can be found on Diamond Aircraft's dedicated [EAA AirVenture Page](#).
