EMBRAER'S E195-E2, KC-390 AND LEGACY 450 DEBUT AT THE PARIS AIR SHOW 2017

News / Events / Festivals, Manufacturer

Demonstrating the company's unique position within the commercial, defense, and executive aircraft markets, three Embraer aircraft will have their Paris Air Show (www.paris-air-show.com) debut during the 52ème Salon International de l'Aéronautique et de l'Espace, June 19-25, at the Le Bourget Airport, in Paris, France.

This is going to be Embraer's largest presence at a major airshow bringing together a static display that showcases the new E195-E2, the largest member of the second generation of Embraer's family of commercial jets, the multi-mission transport and aerial refueling aircraft KC-390 and the state-of-the-art mid-light business jet Legacy 450, a remarkable union of technology and design aircraft that flies faster and farther than any other jets in its class.
