

PRODUCTION OF THE FIRST IL-112V AIRCRAFT WAS STARTED IN RUSSIA

News / Manufacturer

Production of the first IL-112V military-transport aircraft was started by Voronezh Aircraft Manufacturing Company (VASO), Ilyushin Company CEO, Nikolai Talikov, said.

“The work is on schedule. VASO has already started production of the first IL-112V prototype. The production will be completed in 2016. The aircraft’s maiden flight is scheduled for June 2017,” Talikov said at MAKS-2015 airshow.
