RUSSIAN AEROSPACE FIRM TO OFFER SYSTEMS FOR HELICOPTER PROJECT WITH CHINA

News / Manufacturer

Russia's Technodinamika holding company, involved in the manufacture of aviation units and **power supply systems**, is ready to join a **Russian-Chinese heavy helicopter project**, the company's head Maxim Kuzyuk said.

Earlier on Wednesday, Russia's Rostec deputy CEO Dmitry Shugaev said the company expected to sign a contract and an intergovernmental agreement on the heavy helicopter production in mid-2016 with China's Avicopter.

"We can offer basic systems for this machine [helicopter], including landing gears, fuel, hydraulic, electrical and oxygen systems, auxiliary power units and other [systems]," a press release obtained by Sputnik quoted Kuzyuk as saying.

In May, Rostec's Russian Helicopters and the Aviation Industry Corporation of China (AVIC) signed a framework agreement on cooperation in the production of advanced heavy helicopters.

The demand for the new helicopter in China could be more than 200 helicopters in the period until
