

## VRT-500 HELICOPTER WITH LIEBHERR ENVIRONMENTAL CONTROL SYSTEM ON BOARD

News / Events / Festivals, Manufacturer

**We've already reported some news from MAKS 2019 regarding New VRT-500. Here some more great news - VRT-500 helicopter with Liebherr environmental control system on board!**

**Liebherr-Aerospace has signed at the 16th MAKS Airshow an agreement with VR-Technologies, a subsidiary of Russian Helicopters, to be the supplier of the environmental control system for their new civil helicopter VRT-500.**

**The agreement to supply the light single-engine multi-purpose VRT-500 helicopter with the environmental control system includes the cooling system as well. VR-Technologies anticipates the VRT-500's breadth of application to be quite diverse – from private use, taxing, tourism, news/media and logistics all the way to rescue and ambulance services.**

The forecast for deliveries of the VRT-500 is quite solid. The helicopter was first revealed to the world in 2018. Liebherr-Aerospace is proud to share the news that they will partner with VR-Technologies" which channels the proven expertise in developing helicopters with today`s market demands. "We are thrilled to have been awarded this contract by VR-Technologies. We have built

a solid reputation in the helicopter market by supplying various systems to our customers. The addition of VR-Technologies to our portfolio is an honor and we look forward to serving them”, said Nicolas Bonleux, Chief Commercial Officer, Liebherr-Aerospace & Transportation SAS.

“We are happy to announce that Liebherr-Aerospace will be one of our suppliers in this venture. Their knowhow, reputation and customer-centric approach were decisive factors to bring them on board our VRT-500 program. This is a new milestone for us and we are happy to lock hands with an industry-leader such as Liebherr-Aerospace. We are paving our way to a new development, reaching a broader global customer network; thus, having strong and well respected supplier network by our side is of the utmost importance to us”, said Alexander Okhonko, General Manager of VR-Technologies.

The VRT-500 is a 5-passenger, light single-engine multipurpose helicopter expected to be highly successful in Europe with EASA certification in the horizon. With cruise speed of 225 km/h (approx. 140 miles per hour) and max range of 860 km (approx. 534 miles), this helicopter is bound to become a versatile solution to a multitude of industries.
